DELTA ZONE SYSTEM

Week 1 Starter Plan for Complete Beginners

Your first week of HYROX training

Welcome! This is your first week training with Delta Zone System. These sessions are designed for someone who is new to working out or getting back into fitness after a break. You'll learn the basics of pacing, simple strength movements, and get your first taste of HYROX stations.

What you'll need: Comfortable shoes for walking/jogging • Light dumbbells (5-15 lb / 2-7 kg) • Access to a rower or SkiErg (optional—substitutes provided) • A wall and a medicine ball (optional—substitutes provided)

The RPE Scale (How hard to work):
• RPE 3-4 = Easy, can chat comfortably
• RPE 5-6 = Working, can talk in short sentences
• RPE 6-7 = Moderately hard, breathing harder but sustainable
• RPE 8+ = Hard (not used this week)

This week, nothing should feel harder than RPE 6-7. If it does, slow down, take breaks, or use the easier options.

SESSION 1: Easy Run/Walk + Mobility (30 min)

Goal: *Build your aerobic base with easy movement.*

Warm-up (5 min)

Walk at a comfortable pace

Main Set (20 min)

10 rounds of:

→ 1 min: Easy jog (or brisk walk if jogging isn't comfortable yet)

→ 1 min: Walk

RPE: 4-5 — You should be able to talk the whole time

Cool-down (5 min)

Slow walk • Gentle stretches: calves, hip flexors, hamstrings (hold each 20-30 sec)

> **Note:** If 1 minute of jogging is too much, start with 30 seconds jog / 90 seconds walk. The goal is to move continuously for 20 minutes, not to go fast.

SESSION 2: Introduction to Strength (35 min)

Goal: *Learn basic strength movements that build HYROX readiness.*

Warm-up (5 min)

10 arm circles each direction • 10 air squats • 10 walking lunges • 5 inchworms

Main Set (25 min)

Complete 3 rounds, resting 90 seconds between rounds:

- → **Goblet Squats** — 10 reps
  RPE: 5-6 • *Easier: Bodyweight squats to a chair*
- → **Push-ups** — 8 reps
  RPE: 6 • *Easier: Hands on a bench or counter*
- → **Bent-Over Dumbbell Rows** — 8 reps each arm
  RPE: 5-6
- → **Reverse Lunges** — 8 reps each leg
  RPE: 5 • *Easier: Hold a wall for balance*
- → **Plank Hold** — 20-30 seconds
  RPE: 6 • *Easier: Plank on your knees*

Cool-down (5 min)

Walk slowly for 2 minutes • Stretch: hip flexors, chest, shoulders

> **Note:** Focus on smooth, controlled movement. Rest as needed between exercises.

SESSION 3: Rest Day or Easy Walk

Goal: *Let your body recover.*

Option 1: Complete Rest — Take the day off completely

Option 2: Easy 20-Minute Walk — Very gentle walk at conversation pace (RPE 3)

> Think of this as active recovery, not a workout.

SESSION 4: Station Introduction (40 min)

Goal: *Get your first feel for three HYROX stations.*

Warm-up (8 min)

5 min easy walk or bike • 10 air squats • 10 small two-foot jumps • 5 slow inchworms

Main Set (28 min)

Complete 4 rounds with 90 seconds rest between rounds:

- → **Rowing** — 2 minutes easy
  Focus on smooth rhythm, not power • Stroke rate: 20-22 strokes per minute
  RPE: 5-6 • *No rower? 2 min bike or assault bike*
- → **Wall Balls** — 15 reps
  Hold medicine ball (6-10 lb) at chest • Squat down • Stand up and throw to target ~8 feet high
  RPE: 6 • *No ball? Bodyweight squats + overhead press with light dumbbell*
- → **SkiErg** — 90 seconds easy
  Stand tall, pull handles down using your core and arms • Don't rush the return
  RPE: 5 • *No SkiErg? 90 sec jumping jacks or high knees at easy pace*
- → **Easy Walk or Jog** — 2 minutes
  Recover at conversation pace • **RPE: 4**

Cool-down (4 min)

Walk 2 minutes • Stretch: quads, shoulders, hamstrings

> **Note:** This is your introduction to HYROX stations. Don't worry about speed or weight—just learn the movements and how they feel when you're already a little tired.

YOUR TRAINING TRACKER

Use this simple tracker to record what you did. Writing it down helps you see progress.

Day	Session	Completed?	How It Felt (1-10)
Mon	Session 1 - Run/Walk	☐	___
Tue	Session 2 - Strength	☐	___
Wed	Session 3 - Rest	☐	___
Thu	Session 4 - Stations	☐	___
Fri	Rest	☐	___
Sat	Optional Easy Walk	☐	___
Sun	Rest	☐	___

Tips: It's okay to skip a day if you need to • Partial credit counts! • If you're very sore, take an extra rest day • Aim for 4 days of activity this week

WHAT COMES NEXT?

This is Week 1—your introduction to the Delta Zone method. Ready for more?

Get the 4-Week Program — $39 **Apply for 1-on-1 Coaching**

The full 4-week program builds on this foundation with structured progression, all 8 HYROX stations, running + strength combined sessions, heart rate zone training, and race-day preparation.
